**SUBJECT: APPLICATION FOR IT INDUSTRIAL ATTACHMENT – REBECCA NABUSAMBYA**

Dear Hiring Manager,

I am writing to express my strong interest in securing a 3-month industrial attachment within your IT department, starting in September 2026. Currently pursuing a Diploma in Information Technology at KCA University, I have maintained a strong academic standing with a ***3.41*** GPA. However, what truly sets me apart is my dedication to applying technical theory to live, real-world projects.

Rather than limiting my studies to the classroom, I actively build solutions. I designed and deployed a live, functional e-commerce website for a local business (first-class-perfume.vercel.app) that streamlines client orders directly to WhatsApp. Additionally, I have built a dedicated home lab environment using VirtualBox to practice enterprise system administration, including configuring Windows Server, setting up Active Directory domains, managing user permissions, and deploying Group Policies.

Throughout my coursework, I have developed strong practical competencies in:

- **Helpdesk & Hardware Support:** Troubleshooting hardware faults, installing operating systems, and performing component upgrades.
- **Infrastructure & Networks:** Understanding TCP/IP configurations, subnetting, and network device fundamentals.
- **Technical Documentation:** Writing clear structural overviews and documenting step-by-step troubleshooting processes (visible on my GitHub profile).

My academic achievements include an A in Computer Organization, an A- in Systems Analysis, and an A in Web Design. Outside of my primary technical units, I earned 2nd place nationally in

the Junior Achievers Kenya competition, which refined my skills in teamwork, project execution, and communicating value under strict constraints.

I am eager to bring this proactive work ethic and technical curiosity to your infrastructure team. I am fully prepared to handle foundational IT tasks, learn your internal workflows, and support your users efficiently.

Thank you for your time and consideration. My CV, portfolio links, and official university request letter are attached for your review. I am available for an interview at your earliest convenience.

Yours sincerely,

**REBECCA NABUSAMBYA MANYASI**
